

FURUTECH

PURE TRANSMISSION

High End Performance IEC connector

FI-C15 NCF(R)

FI-C15 NCF(R) IEC connector

Type: 2-pole+earth, Rating: 15A 125V / 10A 250V A.C

Nano Crystal² Formula - Nano Crystalline, Ceramic and Carbon Powder

Incorporated into select Furutech products, Nano Crystal² Formula --- **NCF** is comprised of a special crystalline material that has two “active” properties. First, it generates negative ions that eliminate static and secondly, it converts thermal energy into far-infrared. Furutech then combines this remarkable crystalline material with nano-sized ceramic particles and carbon powder for their additional “Piezo Effect” damping properties. The resulting Nano Crystal² Formula is the ultimate electrical and mechanical damping material – only found in Furutech products!

Furutech is known the world over for a huge variety of top-quality OEM parts and delivers consistently superior results by following Pure Transmission principles; examine every link in the power and signal path and ultimately optimize each and every element.

The new FI-C15 series feature a new plating technique which delivers sonic improvements and a more durable finish. Also new to the series are new design cable clamps for firm grip and resonance control. New outer dimensions design that easy to use in cramped or small place!

Features

- Rhodium-plated α (Alpha) Pure copper Conductor
- Nylon /fiberglass with special “NCF” anti-resonance damping material - nano-sized crystalline, piezo ceramic particles and carbon powder main body and inner cover plate.
- Specified for cable diameters of 6.6mm to 16.0mm (Wire size of 3.5mm² (12AWG) max.)
- Polycarbonate cable damping clamp with stainless screws
- Connection: Set screw
- Dimensions: 22.0mm X 30.0mm X 82.2mm overall length.

Specially Engineered Pressure Plate and Wire Clamp

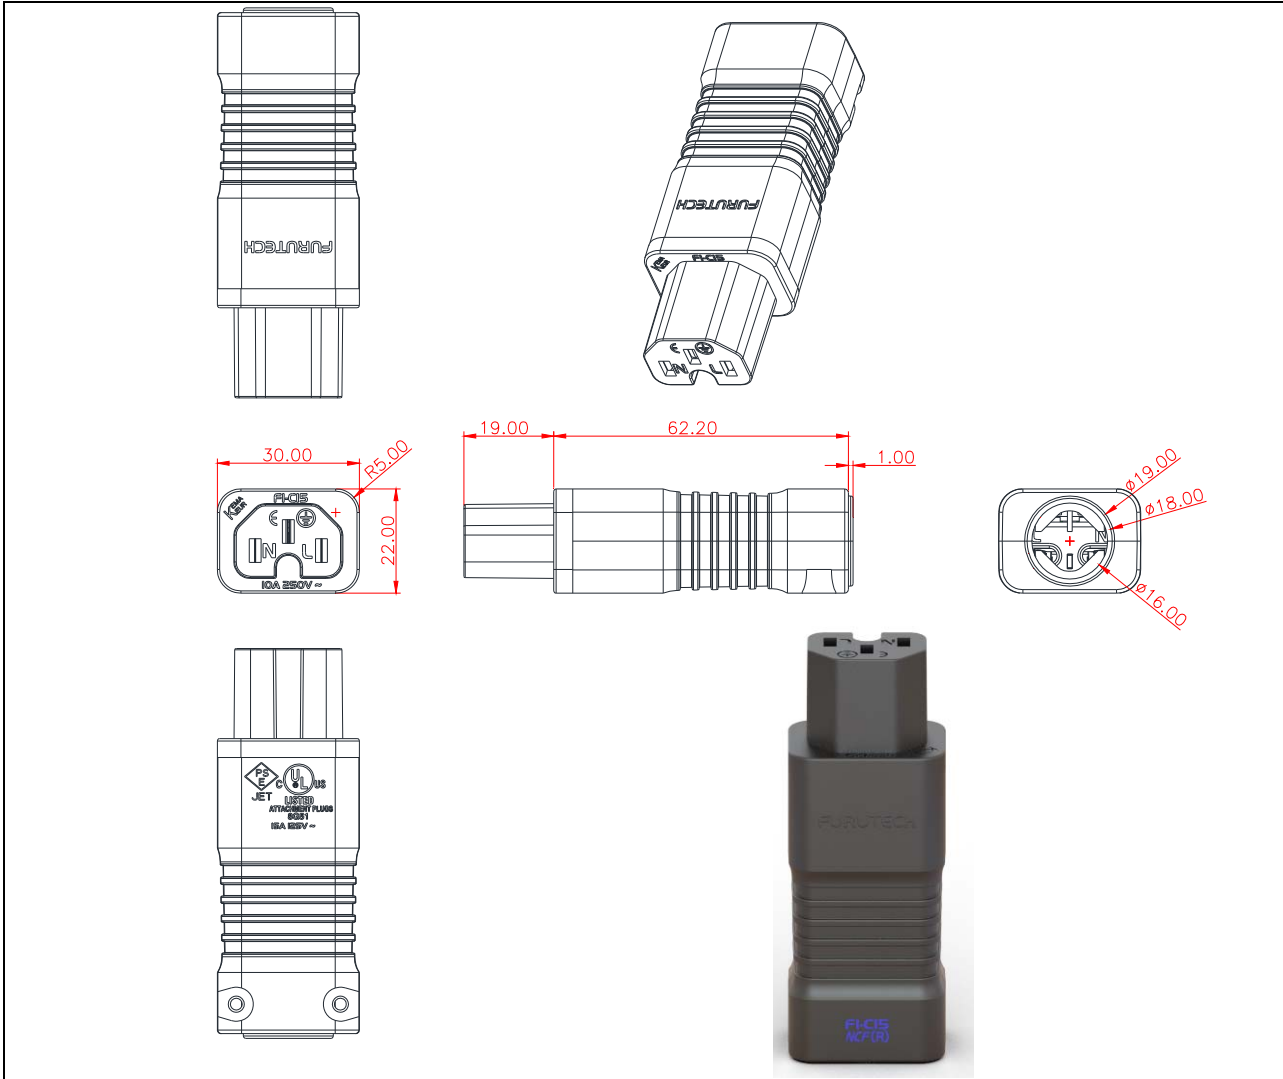

Regular Clamp

Furutech Patent Pending Clamp

Contact Area Calculated Increase: 17.142%
